✚Denotes contract awarded. The names of bidders awarded contracts are set in CAPITALS.

Engineering Work on the Pacific Coast

Many engineers from the East and Central West contemplate visiting the Exposition on the Pacific Coast this year, and some of them have already formed a half-hearted idea to locate there permanently if conditions are propitious.

Knowing this, a series of letters has recently been sent out to well informed engineers in Washington, Oregon and California, in an endeavor to secure an idea of the contemplated municipal work for the year. The results, which are highly satisfactory, are given below in an abbreviated form. Regarding work on the Coast, especially work for engineers, the statement, by a prominent contracting firm, will bear repeating as follows:

"You will be doing a great favor, not only to engineers here but to all engineers in the East, by informing them that the engineering profession in this country is greatly overcrowded now, and that they should not come out here with the idea of staying and following their line of work. They are much better off in the East, where conditions are more stable the year round."

There is a great deal of work outside of the strictly municipal projects, such as hydro-electric plants, bridges, Columbia Highway, and other roads of like importance. Many of these will not be completed for several years, but the preliminary plans are now being prepared.

Aberdeen, Wash.—The improvement most needed is a permanent water supply, but there is little likelihood of the work being done this year.

Albany, Ore.—The public improvements most needed are a city hall, and a municipal gas plant. Little prospect of their construction this year.

Anaheim, Calif.—Improvement most needed is a new city hall. There is a prospect that a block of ground will be purchased, and a $40,000 city hall built, as the nucleus of a Civic Center.

Ashland, Ore.—The greatest need is for the extension of the municipal water and lighting systems. Improbable that any work will be done this year.

Astoria, Ore.—No special need, except for work now under way. Private improvements and industries are most wanted. Small amount of street improvement and sewer construction planned for this year, but most of the contracts for city improvement work have been awarded.

Bakersfield, Calif.—Ornamental street lights, storm sewers, and a garbage disposal plant are badly needed. Will probably not be done this year, but it is possible, as a new city charter is now before the Legislature.

Berkeley, Calif.—The city needs an improved water supply. Little prospect of any work this year.

Bremerton, Wash.—The city is most in need of grading and sidewalk improvements. About one mile of paving is contemplated during the year. The city also contemplates the purchase of the water and light plants.

Burns, Ore.—The city needs a new water supply and sewer construction. Little likelihood of their construction this year.

Coalinga, Calif.—Good roads and water supply are most needed. No improvements contemplated for this year.

Colfax, Wash.—A municipal park and playgrounds, and surfacing of country roads in the vicinity are needed. The work will probably be done this year.

Centralia, Wash.—There is need of pavements, sewers, city hall and other improvements. No funds to do the work at present.

Corona, Calif.—Street paving, sewage disposal plant and ornamental street lights are needed. About four miles of street paving will probably be done this year.

Emeryville, Calif.—The city's greatest need is for additional asphalt paving. Some of the work will probably be done this year.

Eugene, Ore.—The city needs more paved streets. About a mile of pavement will probably be laid this year. The Water Board also contemplates building several auxiliary reservoirs.

Glendale, Calif.—The city has no sewer system as yet. Preliminary investigations to this end are now beginning.

Hoquiam, Wash.—No special need of any improvements at present. Small amount of street work will probably be done this year.

Los Angeles, Calif.—Street tunnels and subways are much needed in Los Angeles. The work will probably not be done this year.

Marshfield, Ore.—Street paving is needed, of which a small amount may possibly be done this year.

Marysville, Calif.—The city needs improved streets, and a system of storm sewers. It is probable that the work may be begun this year.

Medford, Ore.—The county needs good roads and irrigation districts more than anything else. That portion of the Pacific Highway through Jackson County (50 miles) will be completed this year. It is also proposed to form an irrigation district covering about 5500 acres of the Rogue River Valley.

Mill Valley, Calif.—This city needs improved streets, but there is little likelihood that the work will be done this year.

Modesto, Calif.—Good roads throughout the county are greatly needed. Some street work is now being done, and more may follow.

Monrovia, Calif.—Macadam or concrete roads are needed, but the work will not be done this year.

Nevada City, Calif.—Better residence streets are needed by this city. A considerable amount of work will be done this year.

North Bend, Ore.—New city, so the great need is for improved streets. About $100,000 worth of grading done last summer, and the main business street will be hard surfaced for a distance of one-half mile this year.

Oakland, Calif.—A new district, recently annexed, needs improved streets and sewers. A part of the work will be done this year.

Olympia, Wash.—The city needs a new source of water supply. The city authorities contemplate the construction of a municipal water system, but the plan is opposed by the taxpayers, so no bonds can be sold for the purpose.

Ontario, Calif.—Better streets and a public park are most needed in this city. A site of 40 acres belonging to the city will be eventually laid out as a park. Some trees will probably be planted this year as a beginning. Plans are being prepared for the improvement of eight miles of streets, mostly concrete base, with asphaltic oil wearing surface, and some of macadam, concrete gutters and culverts.

Oregon City, Ore.—Main St. in need of repaving. The work will be done this year. A pipe line, 25 miles long, will be constructed from the head waters of the Clackamas.

Oroville, Calif.—Street pavements and good roads are most needed in the vicinity. Contracts will be let during the year for two miles of pavement on asphaltic concrete base.

Oxnard, Calif.—Additional paved streets are much needed. Ten blocks of waterbound macadam at present under construction.

Pasadena, Calif.—Better transportation facilities are greatly needed in Pasadena. Nothing will be done this year, unless financial conditions improve.

Pendleton, Ore.—Septic tanks are needed. It is expected that the work will be done this year.

Pomona, Calif.—The public improvements needed include roads, street lights, outfall sewer, etc. Contracts have been let for nine miles of concrete roads, to cost about $150,000. Plans have been prepared for an ornamental street-lighting system. Pomona is also in need of a first class hotel.

Porterville, Calif.—Street paving is needed. Contracts for 475,000 sq.ft. of pavement will be awarded in February, and completed as soon as possible.

Portland, Ore.—Water front improvements are needed. It is quite unlikely that the work will be done this year. Some street and sewer improvements will be made this year. It is also planned to build a new diversion dam at the intake of the water supply.

Pullman, Wash.—Street paving is much needed. Contracts have been awarded for some bitulithic and bituminous macadam paving.

Redondo Beach, Calif.—Street improvement is the principal need of the city. Probably no work will be done this year.

Roseburg, Ore.—The city is much in need of a trunk line intercepting sewer. Little probability of its being built this year.

Salem, Ore.—Only minor improvements are needed by this city. They will probably be made this year.

San Francisco, Calif.—Among the municipal improvements planned for the year are: Extensions of railways, perfecting the garbage incinerating system, extension of sewers and water supply.

San Rafael, Calif.—Bridges are needed, also storm sewers and additional street paving. Some of the work will be done this year. The city spent over $200,000 during 1914 for municipal improvements.

Santa Clara, Calif.—Street improvements are most needed by this city. About five miles of street pavement, sidewalks, curbs and gutters will be constructed this year.

Santa Monica, Calif.—This city needs a system of storm sewers, and the street paving consistent with the improvement of property. The storm sewers will be constructed this year, providing the election for the issue of the necessary bonds carries.

Seattle, Wash.—Bridges are most needed in Seattle. An election will be held in March for the purpose of voting a bond issue for the construction of bridges over Lake Washington Canal. Some general improvements are also needed.

Snohomish, Wash.—No special improvements are needed in Snohomish and vicinity.

South Bend, Wash.—Reclamation of the tide lands is needed. One concrete dike will be constructed this summer. The estimated cost is $60,000.

Spokane, Wash.—No public improvements needed at this time. Grade separation work by various railways has either been recently completed, or is now under way.

Stockton, Calif.—Sewer extensions are needed in the city, but it has not yet been decided whether the work will be undertaken this year or not. An irrigation system is being planned to develop about 40,000 acres of land in Shasta County. The main canal will be 40 miles long, with about 55 miles of laterals.

Tacoma, Wash.—Hard surfaced trunk highways are needed in the vicinity. The city needs a trunk sanitary sewer, and intercepting storm and sanitary sewers. The work will not be done this year.

Tulare, Calif.—Street paving, an additional school building and a new city hall are the principal needs of this city. Some paving of the city streets, and of the State Highway through Tulare County will probably be done this year.

Vallejo, Calif.—An improved system of garbage disposal, and filling of the water front are needed in Vallejo. It is improbable that the improvements can be made this year.

Ventura, Calif.—Storm sewers, costing from $20,000 to $24,000, are much needed. On account of the already heavy indebtedness of the city, the work will probably not be undertaken this year.

Visalia, Calif.—Street improvements and sewer extensions are needed. No work contemplated in the near future. An election will be held shortly to vote on the question of a new city charter, including a City Manager plan.

Watsonville, Calif.—No improvements contemplated. This city is the center of a fruit raising country, so there is little engineering work of importance.

Whittier, Calif.—Street paving and improvement of the water supply are most needed in this city. Proceedings are under way for laying about 300,000 sq.ft. of asphalt pavement, and more work of the same class is contemplated. Improvements and extensions to the water system, to cost about $10,000 are also under consideration. A new grammar school, to cost $30,000 will soon be built.

RAILWAYS

Virginia—Norfolk & Western Ry.—Surveys are being made by this company for the construction of a railway from Pamplin to Burkeville, Va. J. E. Crawford, Roanoke, Va., is Ch. Engr.

West Virginia—Buckhannon & Northern R. R.—This company has completed surveys and is arranging to start work about Apr. 1 on the extension of its line from Fairmont to Clarksburg, W. Va., about 17 miles. S. D. Brady, Fairmont, W. Va., is Ch. Engr. Noted Feb. 11.

Kentucky—The Continental Coal Co. contemplates an expenditure of $12,000 for the construction of a spur to its mine at Straight Creek, Ky. L. E. Yoder is Ch. Engr.

Kentucky—Illinois Central R.R.—Surveys are being made by this company for double-tracking its line from Central City to Paducah, Ky. A. S. Baldwin, Chicago, Ill., is Ch. Engr.

Indiana—Vandalia R.R.—This company has completed surveys for the construction of a four-mile spur from the White Rose mine in Linton, Ind., to the Southwest mine. F. T. Hatch, St. Louis, Mo., is Ch. Engr.

Kansas—Union Pacific R.R.—This company contemplates ballasting its line from Ellis to Oakley, Kan., about 71 miles. R. L. Huntley, Omaha, Neb., is Ch. Engr.

South Dakota—Chicago, Milwaukee & St. Paul Ry.—According to press reports this company contemplates taking over the Crouch line, from Rapid City to Mystic, S. D. It is reported also that the company has made surveys for an extension from Silver City to Nahant, S. D. C. F. Loweth, Chicago, Ill., is Ch. Engr.

Texas—Chicago, Rock Island & Gulf Ry.—This company contemplates the construction of an extension from Graham to Albany, Tex., about 50 miles. A. B. Warner, Fort Worth, Tex., is Gen. Supt. and Ch. Engr.

Texas—Missouri, Kansas & Texas Ry.—Plans are being considered by this company for the extension of its line from Newcastle to Cisco, Tex., about 50 miles. F. Ringer, Parsons, Kan., is Engr. Maintenance of Way.

Oklahoma—Atchison, Topeka & Santa Fe Ry.—According to press reports this company is making surveys for the construction of a railway from Maramec to Jennings, Okla., about 10 miles. F. M. Bisbee, Amarillo, Tex., is Ch. Engr. Western Lines.

Oregon—It is reported that Porter Bros., Portland, Ore., will construct a railway up South Santiam Valley, from Albany to Lebanoux.

Ontario—Canadian Northern Ontario Ry.—Surveys have been completed by this company for the construction of a railway from Toronto to Niagara Falls, about 79 miles. R. A. Baldwin, Toronto, Ont., is Engr.

ELECTRIC RAILWAYS

New Britain, Conn.—The New Britain St. Ry. Co. has applied for a charter to build an electric railway in New Britain. At present the capital stock is $50,000 but is to be increased to $500,000. Among the incorporators are Mayor George A. Quigley and George M. Landers.

Thompsonville, Conn.—The Hartford & Springfield St. Ry. Co., Warehouse Point, Conn., is having plans prepared for extending its line from the waiting station at Thompsonville through Main St., across the Connecticut River, and connecting on Mapleton Ave., in Suffield, with the present Suffield St. Ry. Joseph S. Goodwin is Supt. and Pur. Agt.

Watertown, N. Y.—The Black River Traction Co. contemplates re-tracking its line on the Public Square. Work will start sometime during the summer. L. Schwerzmann is Gen. Mgr. and Supt.

Chambersburg, Penn.—An application for a charter will soon be made for the purpose of building a railway to connect McConnellsburg and Fort Loudon. Edward J. Post and D. H. Patterson are interested.

Monaca, Penn.—Press reports state that a company will be organized in Monaca to build a line from Monaca, south to Coraopolis, about 20 miles. J. W. Reid and J. J. Allen are interested.

South Bethlehem, Penn.—The Lehigh Valley Transit Co. is considering plans for double-tracking its line from South Bethlehem to Hellertown, and for the construction of a new line from Hellertown to Richlandtown. W. W. Wysor, Allentown, is Ch. Engr.

Atlanta, Ga.—The Georgia Ry. & Power Co., having made preliminary surveys, is considering extending its line to Oglethorpe University, about 1½ miles north of the terminus at the DeKalb County Line. W. H. Glenn is Mgr.

Augusta, Ga.—The Augusta-Aiken Ry. & Electric Corporation plans to improve its lines. John H. Adams is Ch. Engr. and Master Mechanic.

Waycross, Ga.—The Waycross St. & Suburban Ry. Co. is having plans prepared for extending its line through the southern section of Waycross. N. B. Rhoads is Gen. Mgr. and Pur. Agt.

Cleveland, Ohio—The Cleveland Ry. Co. has been requested to consider plans for an extension of the West Madison Ave. line from West 117th St. to Riverside Ave., Lakewood. Other improvements and extensions in Cleveland are also contemplated. George L. Radcliffe is Gen. Mgr.

Conneaut, Ohio—The Conneaut, Kingsville & Ashtabula Ry. Co. has completed surveys on its 14-mile line between Conneaut and Ashtabula. No definite time for starting construction has yet been fixed. W. E. Hawley, Kingsville, Ohio, is Pres.

Portsmouth, Ohio—Plans are being prepared by the Portsmouth St. Ry. & Light Co. to build an extension in Portsmouth. W. A. Martin is Ch. Engr.

Evansville, Ind.—The Board of Public Works has granted a franchise to the Evansville Ry. Co. to extend its Bell St. line from Kentucky Ave. to the city limits. William A. Carson is Gen. Mgr. and Pur. Agt.

East St. Louis, Ill.—The East St. Louis & Suburban Ry. has been requested to consider plans for building its tracks along Main St. from Broadway to Missouri Ave. C. A. Pearson, Jr., is Secy.

Lincoln, Ill.—The Lincoln Ry. & Heating Co. has been recently incorporated with a capital of $15,000. This company is believed to have been organized as a successor to the Lincoln Ry. & Light Co. for the purpose of building electric railways in Lincoln. Among the incorporators are J. R. Patton and John A. Hoblit.

Coffeyville, Kan.—Press reports state that plans are being considered by the Union Traction Co. to extend the line from Coffeyville to Collinsville, Okla. This line will finally run to Tulsa via Collinsville. Roy Kennedy is Supt.

Dunkirk, Kan.—The Joplin & Pittsburg Ry. Co., Pittsburg, Kan., is considering plans for extending its line from Dunkirk to Arcadia, via Hazen and other coal camps. William A. Satterlee is Gen. Mgr. and Pur. Agt.

St. Louis, Mo.—The United Rys. Co. of St. Louis has been requested to consider plans for extending its lines along Tamm Ave. to Art Hill in Forest Park. Robert McCulloch is Supt.

Phoenix, Ariz.—The City Council has granted a franchise to the Phoenix Ry. Co. to build an extension along Monroe St. between First St. and Second Ave. J. P. Gould is Ch. Engr.

Klamath Falls, Ore.—Press reports state that a line is being planned from Eureka, Calif., north to Requa and from there along the Klamath River to Klamath Falls. D. W. Hanson, Pres., Eureka Development Association, is interested.

Hamilton, Ont.—The City Council has selected a committee to request the Hamilton St. Ry. Co. to build two cross-town lines and also relay new tracks on several streets in Hamilton. C. K. Green is Supt. of Construction.

Ottawa, Ont.—The Ottawa & St. Lawrence Electric Ry. Co. will start work during the spring on the section from Perth to Smith Falls, which will make a belt line of 300 miles. E. Malone is Ch. Engr.

Toronto, Ont.—At the next session of the Legislature, the Toronto & York Radial Ry. Co. will make an application to construct a double track line on Yonge St., from the Canadian Pacific R.R. tracks to the north city limits of Toronto. E. W. Oliver is Ch. Engr.

LIGHT, HEAT AND POWER

Bar Harbor, Maine—It is reported that the town is considering the installation of a municipal electric-light plant.

✚Bridgeport, Conn.—The American Graphophone Co. has awarded a contract to J. W. DAVIS, 510 Security Bldg., Bridgeport, for the construction of a brick and steel transformer house at its plant on Railroad Ave.

Bridgeport, Conn.—Press reports state that the United Illuminating Co. will shortly begin the construction of an addition to its plant on Congress St. The building will be 50x150 ft., and 35 ft. high. Charles A. Paul is Mgr.

✚Bridgeport, Conn.—The contract for the heating and mechanical equipment for the group of almshouse buildings has been awarded to the W. P. KIRK CO., 360 Fairfield Ave., Bridgeport, at $49,980. The work includes heating and ventilating, hospital equipment, vacuum cleaning system, laundry machinery and plumbing. Other bidders were: C. H. Darnstade, New York, $67,400; W. G. Cornell, New York, $65,196; Files Engineering Co., Providence, $62,727; Merrill Co., Boston, $58,439; G. E. Gibson Co., New York, $56,960; E. G. Woolfolk & Co., New York, $56,863; E. S. Eames & Co., $54,480; Walker & Chambers, New York, $53,215; Fentzlaff Heating & Plumbing Co., New York, $51,500. Skinner & Walker, 1188 Main St., Bridgeport, is Arch.

✚Quinebaug, Conn.—The Fabyan Woolen Co., Quinebaug, has awarded the contract for the construction of a 50x80-ft. power house with a 125-ft. chimney to the EASTERN CONSTRUCTION CO., Woonsocket, R. I.

Elba, N. Y.—The Elba Food Products Co. will build a one-story, 52x75-ft. power house in connection with its new canning and preserving plant. Raymond M. Decker, Batavia, N. Y., is Pres.

New York, N. Y.—(Borough of Manhattan)—(Official)—All bids received Jan. 29 by the Board of Trustees, Bellevue and Allied Hospitals, for reconstructing the existing branch circuits of the electric lighting system, additional gas piping and

gas and electric fixtures for the main building of the Harlem Hospital, were rejected. New bids for the work will be received until noon, Feb. 24. John W. Brannan, M. D., is Pres. Bd. of Trustees. Noted Jan. 21 and Feb. 4.

✚New York, N. Y.—(Borough of Brooklyn)—(Official)—The contract for installing heating and ventilating apparatus in Public School 36, Stagg and Ten Eyck St., Borough of Brooklyn, has been awarded to WILLIAM J. OLVANY, 177 Christopher St., New York, at $17,535. Noted Jan. 21 and Feb. 4.

✚New York, N. Y.—(Borough of Brooklyn)—(Official)—The contract for installing electrical equipment in new Public School 95, Van Sicklen St. and Neck Rd., Borough of Brooklyn, has been awarded to PEET & POWERS, 45 West 34th St., New York, at about $7570. Noted Jan. 21 and Feb. 4.

Utica, N. Y.—James F. Leahy, 411 John St., will equip a power house in connection with a new laundry plant. The total cost will be $50,000. The power building will be one story, 50x70 ft.

Fairmont, W. Va.—(Official)—Bids will be received until noon, Mar. 15, by the State Board of Control, Charleston, for heating, plumbing and electrical work for the main building of the Fairmont State Normal School. Paul A. Davis, 3d, Presser Bldg., Philadelphia, Penn., is Arch. J. S. Lakin, Charleston, is Pres. State. Bd. of Control.

Lakeland, Fla.—See item under "Water Supply-Irrigation."

New Orleans, La.—It is reported that an offer has been made to the Commission Council by George T. Bishop, Baltimore, Md., Pres. of the Washington, Baltimore & Annapolis Electric R.R. Co., to construct an electric-light plant, to be eventually taken over by the city. Mr. Bishop represents a syndicate having about $40,000,000 to invest in civic development ventures. E. E. Lafaye, Comr. of Pub. Property, is considering the proposal.

Chattanooga, Tenn.—It is reported that the Duck River Power Co., Shelbyville, has sold its electric-light plants at Shelbyville, Manchester and Wartrace, Tenn., to the Tennessee Ry., Light & Power Co., Chattanooga. The new owners will improve these plants.

Irvine, Ky.—It is reported that H. E. Hay, Corbin, Ky., has secured a franchise, and will establish an electric-light plant, to cost about $5000, in Irvine. Noted Dec. 25, 1913, Jan. 22 and Sept. 3, 1914.

Bucyrus, Ohio—The Bucyrus Light & Power Co., a subsidiary of the National Gas, Electric Light & Power Co., Detroit, Mich., is having plans prepared for the construction of a new power plant. It will be operated by steam instead of gas, now used, and the present plant will be dismantled. The estimated cost of the new plant is $40,000. D. F. Burritt, Detroit, Gen. Supt. of the National Gas, Electric Light & Power Co., will supervise the work.

Butler, Ohio—Bonds to the amount of $4000 have been issued, the proceeds of which will be used for improving the municipal electric-light plant. The purchase of a gas engine is also under consideration.

Chillicothe, Ohio—It is reported that the Mead Pulp & Paper Co., Dayton, contemplates enlarging its local pulp mill and power plant at a cost of about $100,000.

Cleveland, Ohio—The River Furnace Co., West Third St., has taken out a permit for the construction of a two-story, 122x400-ft. power house. It will contain 16 boilers and 16 generators and blowing engines. The estimated cost is $125,000.

Franklin, Ohio—Press reports state that the village is considering the installation of a municipal electric-light plant. The present contract with the Franklin Electric Light Co. for street lighting expires next August.

✚Youngstown, Ohio—The City Council has authorized the Director of Public Service to enter into a contract with the YOUNGSTOWN & SHARON ST. RY. CO. to light the streets of the city for a period of ten years, beginning Apr. 1, 1915. Noted Jan. 28.

Marquette, Mich.—It is reported that Charles Retallic, Supt. and Mgr. of the municipal light and power plant, has recommended the construction of a new power house and penstock.

Muskegon, Mich.—According to press reports, the Muskegon Lighting Co. has decided to construct a new gas tank in Muskegon, with a capacity of 500,000 cu.ft. The estimated cost is $50,000.

Milwaukee, Wis.—The Board of School Directors has retained Van Ryn & De Gelleke, Arch., Caswell Block, to prepare plans for a one-story 28x56-ft. boiler house for the 16th Ave. School. It will cost about $15,000, to be of brick and concrete, fireproof. Frank M. Harbach is Secy. of the Bd.

Buffalo Center, Iowa—The City Council is reported to be considering the installation of a municipal electric-light plant. The estimated cost is $10,000.

Sloan, Iowa—Over $11,000 has been subscribed in Sloan for the purpose of installing an electric-lighting system. The money has been raised by selling stock at $100 per share.

Powhattan, Kan.—Press reports state that an election will soon be held to vote on the question of issuing $10,000 in bonds to be used for the installation of a municipal electric-light plant.

Mexia, Tex.—The City Council has granted a franchise to the Co-operative Gas Co. to lay a system of natural gas distributing mains in various streets of Mexia.

Yorktown, Tex.—It is reported that the Texas Southern Electric Co., Victoria, is negotiating for the purchase of the plant of the Yorktown Light & Ice Co. If the transaction is completed, the plant will be improved. W. A. Leland, Victoria, is Pres. of the Texas Southern Co.

Boise, Idaho—The City Council is considering the installation of a lighting system on the South Side. The estimated cost is $5000. C. C. Stevenson is City Engr.

Elberton, Wash.—The Elberton Building & Power Co., Elberton, contemplates the construction of a 1500-hp. power plant on a site near the city. The company has petitioned the City Council of Colfax, Wash., to grant a 50-year franchise to furnish energy to that city also. Charles N. Hinchcliff, owner of a flouring mill near Elberton, is interested.

Baker, Ore.—It is reported that the Oregon Lumber Co. will install an electric-light plant to serve its own mills, the Sumpter Valley Ry. and the Sumpter Valley machine shops.

Fresno, Calif.—(Official)—Bids were opened Feb. 1 by the State Engineer for the boiler plant equipment, gymnasium and boiler house at the Fresno State Normal School as follows: Thomas Haverty Co., $10,750; F. P. Walsh, $10,787; Scott Co., $11,080; Robert Dalziel, Jr., $11,217; Pacific Fire Extinguisher Co., $11,300; Seibert Co., $11,931; Frederick W. Snook Co., $12,200; Latourrette-Fical Co., $12,400; Grant Fee, $13,000; Arthur Hess, $15,340.

Parlier, Calif.—The Parlier Winery will install a gas plant to serve Parlier, Reedley, Sanger and Kingsburg. P. N. Madsen and W. Parlier, Parlier, are interested.

Cordova, Alaska—Harry H. Knox, Pres. and Mgr. of the Alaska Electric Consolidated Co., Cordova, announces that financial arrangements for the construction of its proposed power plant have been completed, and that construction work will probably begin in the spring. Noted Mar. 19, 1914.

Dutton, Ont.—It is reported that bids will be asked in the spring by the Town Council for electrical equipment to cost about $15,000. It will include transformers, switches, wire, etc.

Thamesville, Ont.—The Town Council has ordered estimates to be prepared for the construction of a new hydro-electric system to furnish light and power for the town.

BRIDGES

Northampton, Mass.—The Board of Commissioners of Hampshire County has petitioned the State Legislature to confirm its acts relative to the proposed bridge over the Connecticut River between Northampton and Hadley. Noted Dec. 18, 1913, and Jan. 7, 1915.

★Central Falls, R. I.—(Official)—Bids will be received until noon, Mar. 15, by Esten & Black, Engr., 18 East Ave., Pawtucket, for the construction of a three-span reinforced-concrete bridge across the Blackstone River between the City of Central Falls and the Town of Cumberland. The estimated cost is $65,000. Noted June 18 and 25, Oct. 1, 1914 and Jan. 21, 1915.

Ansonia, Conn.—The Board of Public Works has instructed V. B. Clarke, City Engr., to prepare plans for the construction of a concrete bridge at Beaver Brook in connection with the extension of Central St. Bids will be asked early in the spring.

Canton, N. Y.—Plans have been prepared by the Concrete-Steel Engineering Co., Park Row Bldg., New York, for a reinforced-concrete bridge over De Grasse River in Canton. The estimated cost of the structure is $30,000. The voters will be asked to authorize, at the next town meeting, the construction of this and two smaller bridges.

Greenwich, N. Y.—A special town meeting will be held Feb. 23 to vote on the question of building four new bridges over Battenkill as follows: A concrete bridge at Bridge St. in the village of Greenwich, to cost not over $15,000; a concrete bridge at Clark's Mills, cost not to exceed $24,000, a concrete bridge at Middle Falls, cost not to exceed $18,000, and a bridge at Battenville, cost not to exceed $16,000, of which the village of Greenwich is asked to pay one-half.

Camden, N. J.—The Philadelphia & Camden Bridge & Terminal Co. has been incorporated by J. Disbrow Baker and Joseph P. Murray, with a capital stock of $125,000. The purpose of the company is to build a bridge over the Delaware River between Camden and Philadelphia.

Elizabeth, N. J.—The Boards of Chosen Freeholders of Union and Somerset Counties have approved plans for a county line bridge over the Green River at Plainfield. The estimated cost is $10,000. It is reported that Union County will also build a new bridge across the Rahway River at Cranford, to cost about $13,000. Jacob L. Bauer, Elizabeth, is Engr. of Union County.

★Mount Holly, N. J.—Bids will be received util noon, Mar. 3, by the Boards of Chosen Freeholders of Atlantic and Burlington Counties, Burlington County Court House, Mount Holly, for repairs to the Chestnut Neck Bridge. A. H. Nelson, Atlantic City, is Engr. of Atlantic County. James Logan is Engr. of Burlington County. For further information, see advertisement under "Contracts to Be Let."

✚New Brunswick, N. J.—The Board of Freeholders has awarded a contract for the construction of a wooden bridge over Manalapan Creek, Madison Township, to A. H. SCOTT & SON.

Chalfont, Penn.—The Commissioners of Bucks County, Doylestown, have decided to build a new concrete bridge over North Branch Creek at Chalfont, to replace the present wooden structure inadequate for the increased traffic. A walk will be built along the outside of the covered bridge over Neshaminy Creek at Chalfont. A. Oscar Martin, County Engr., has been directed to prepare plans for these improvements.

Huntington, W. Va.—A. B. Maupin, City Engr., has submitted to the City Commissioners plans for the Fifth Ave. and 29th St. overhead railway crossings. The estimated cost is $43,562 and $30,325 respectively.

Palatka, Fla.—The Commissioners of Putnam County are asking for estimates of the cost of rebuilding a 4000-ft. concrete bridge over the St. Johns River. J. H. Millican is Chn. Bd. of Comrs.

Mobile, Ala.—The County Board of Revenue and the Road Commissioners of Mobile County have ordered plans prepared for repairing the Dog River Bridge, or placing a new concrete foundation. The estimated cost of the new foundation is $8640.

✝Laurel, Miss.—The Highway Commissioners of the Second District, Jones County, have awarded the contract for the construction of a steel bridge over Horse Creek to the VINCENNES BRIDGE CO., Vincennes, Ind. Noted Nov. 26, 1914.

Natchez, Miss.—The Board of Supervisors of Adams County has ordered that bids be advertised for the construction of an inter-county bridge to be built between Adams and Jefferson County over Fairchild's Creek at Hermitage Ford.

Contracts to Be Let

Bids received until Mar. 3, 1915.

Repairs to Mullica River Bridge

Mt. Holly, N. J.

Sealed proposals for repairs to bridge at Chestnut Neck, New Jersey, will be received by the Boards of Chosen Freeholders of Atlantic and Burlington counties on Wednesday, March 3rd, 1915, at 12:00 noon, at the Burlington county court house in Mount Holly, New Jersey, and opened immediately thereafter.

All bids must be accompanied by a certified check in a sum equal to ten per cent. of the total amount of the bid, payable to the order of the county collector of either Atlantic or Burlington county, to insure that a bidder will enter into a contract, if so ordered by the counties, as a result of the bidding.

Plans and specifications are on file in the office of the Atlantic County Board, Real Estate & Law Building, Atlantic City, New Jersey, and in the office of the Burlington County Board, No. 11 Main street, Mount Holly, New Jersey, and may be obtained from A. H. Nelson, county engineer for Atlantic county, No. 636 Guarantee Trust Building, Atlantic City, New Jersey, or from James Logan, county engineer for Burlington county, New Jersey, Mount Holly, New Jersey, by depositing $5.00 as a guarantee for the return of same. Such deposit will be refunded provided the plans are returned in good condition by noon March 4th, 1915, otherwise such deposit will be forfeited.

The committees reserve the right to reject any or all bids.

The successful bidder will be required to furnish a bond approved by the solicitors of the Boards of Chosen Freeholders of the counties of Atlantic and Burlington, in an amount equal to twice the contract price, for the faithful performance of the work, which bond will remain in force and effect for a period of one year and will be held to guarantee that the completed work will remain safe and sound from defects of workmanship or material for a period of one year. Should the contractor fail or neglect to promptly remedy any defects that may appear, after notice has been given him of any such defect, the counties reserve the right to do such work in any way that may seem to them best and to charge the contractor with any and all costs of same.

Bidders must acquaint themselves with the plans and specifications for the work and, by personal examination, satisfy themselves of the nature, character and location of the proposed work,' that no misunderstanding may arise in regard to the character and quantity of the work to be performed by the contractor.

The blank form of proposal attached to these specifications must be used in making out the bid. The prices must be written as well as stated in figures in the proposal, and any proposal not in accordance with the instructions, or not on the blank furnished, will be rejected. If any discrepancies occur between the written and figured prices, those most favorable to the counties will be taken as the intention of the bidder.

Proposals will be entertained only from parties who have at their command the necessary capital, plant and experience for properly doing the work. Each bidder shall file with his bid a sworn statement setting forth his experience and the location of some work of similar character and magnitude that he has built elsewhere, as an evidence of his ability.

The bidder to whom the contract may be awarded will be required to execute the contract with surety, within ten (10) days from the date of service of notice to that effect; and in case of failure or neglect to do so, he will be considered as having abandoned it.

Each bid must state the full name and address of the maker and each bid must be presented by the maker or by a properly authorized representative at the hour provided for the receiving and opening of the bids. Mailed bids will not be accepted.

Envelopes containing proposals must have endorsed thereon: "Proposals for repairs to Mullica River Bridge."

By order of the Boards of Chosen Freeholders.

A. H. NELSON,
Atlantic County Engineer.
JAMES LOGAN,
Burlington County Engineer.

Bids received until Feb. 24, 1915.

Intercepting Sewers

OFFICIAL NOTICE NO. 9.

PUBLISHED BY AUTHORITY OF THE SEWERAGE COMMISSION OF THE CITY OF MILWAUKEE.

Milwaukee, Wis., January 15, 1915.

Sealed proposals for constructing intercepting sewers and connections on both sides of the Milwaukee River in the City of Milwaukee will be received by the Sewerage Commission at its office in the City Hall until 2:00 P.M. on the 24th day of February, A.D. 1915, at which place and time the proposals will be publicly opened and read.

The work to be done is divided into two separate contracts numbered 9 and 10.

Number 9 embraces the construction of an intercepting sewer and branches on the east side of Milwaukee River from a point below the Dam to the intersection of Broadway and Detroit Streets, and requires the construction of approximately:

7927 ft. brick and concrete sewer in open cut from 30" to 51" diameter.
3992 ft. brick and concrete sewer in tunnel from 30" to 51" diameter.
3844 feet terra cotta pipe sewer from 10" to 24" diameter.
1762 feet of manholes and pile and timber foundations.

Number 10 embraces the construction of an intercepting sewer and branches on the west side of Milwaukee River from the Holton Street viaduct to the intersection of West Water and Fowler Streets and requires the construction of approximately:

8480 ft. brick and concrete sewer in open cut from 30" to 48" diameter.
2340 feet terra cotta pipe sewer in open cut from 10" to 18" diameter.
1105 feet of manholes and pile and timber foundations.

All as shown upon the plans and described in the specifications now on file in the office of the Sewerage Commission.

The time allowed for completing each contract shall be two hundred and fifty (250) working days. (Working days meaning such as are particularly described in the contract.)

The liquidated damages for not completing the work within the time agreed shall, for each day's delay, be an amount equal to one-half of one percentum of the aggregate cost of the work embraced in the contract.

Each proposal must be accompanied by a cash deposit of, or, in lieu thereof, by a certified check drawn upon a national or state bank doing business in the City of Milwaukee, to the order of the "Sewerage Commission of the City of Milwaukee," for the following sums; failing in which the bid will be rejected:

For proposals Number 9, $38,500.00.
For proposal Number 10, $25,000.00.

Specifications and blank forms of proposals can be obtained, and details plans examined, at the office of the Sewerage Commission in the City Hall.

The prices must be written in the proposal and also stated in figures. In case of variation the written prices will prevail.

All cash deposits or certified checks deposited by bidders to whom the contract is not awarded will be returned upon application to the Secretary of the Commission after the contract has been awarded or after the rejection of all bids. The cash deposit or certified check which may be deposited by the successful bidder will be returned to him as soon as the contract is properly executed and approved by the City Attorney and Sewerage Commission.

Full sets of detail plans will be sent to any contractor desiring to bid upon receipt of ten dollars ($10.00).

The Sewerage Commission of the City of Milwaukee reserves the right to reject any and all bids submitted.

J. H. FOWLES, Secretary.

Countersigned:
LOUIS M. KOTECKI, Comptroller.

U. S. ENGINEER OFFICE, 405 Customhouse, Cincinnati, O., January 30, 1915.—Sealed proposals for constructing and delivering two steel Fuel Flats Nos. 18 and 19, and one steel Barge No. 15, will be received at this office until 2 p.m., March 2, 1915, and then publicly opened.
